

State Legislators for Legal Immigration Founder Metcalfe and West Virginia Lawmakers Band Together to Curb Illegal Alien Invasion

Pennsylvania State Representative and State Legislators for Legal Immigration (SLLI) founder Daryl Metcalfe was invited to the West Virginia State Capitol on Columbus Day to voice his support for the efforts of West Virginia SLLI members led by Delegate Kelli Soboyna to advance reform legislation designed to address America's ongoing Illegal Alien Invasion at the state government level.

"It's no secret that our federal government has been AWOL for decades in doing their job of defending our nation from illegal alien invaders," said Metcalfe. "Every elected official (federal, state and local) raises his or her hand and swears to uphold and defend the **United States Constitution**. "This includes **Article 4, Section 4**, which clearly states that our government, 'shall guarantee to every state in this Union a Republican form of government and shall protect each of them against invasion.' As the founding member of StateLegislatorsforLegalImmigration.com it is truly an honor to stand beside so many dedicated lawmakers such as Kelli Soboyna who do not take their oath of office lightly and fully recognize that defending America's sovereignty and ensuring our national security must begin at home."

"As the first West Virginia House member to join this national network of state legislators organized by Representative Metcalfe, I urge all state legislators representing West Virginia to join State Legislators for Legal Immigration," said Soboyna. "It is frustrating waiting for Congress to address this important issue of illegal immigration with their lack of securing our borders and making it less attractive for those to come to our country legally. I applaud my colleagues in the West Virginia Legislature for passing recent legislation that increases the penalties on those who hire undocumented workers. However, there is more to be done. By working together with state legislators from across the country, we can send a strong message to Congress and also learn from each other on ways we can protect our West Virginia jobs and families."

Last December, State Legislators for Legal Immigration members entered into a working partnership with the Immigration Reform Law Institute (IRLI) to create a comprehensive package of model National Security Begins at Home legislative reform solutions that any state lawmaker can introduce to effectively shut off all economic attractions and incentives

for illegal alien invaders.

This model legislation can be accessed by visiting StateLegislatorsforLegalImmigration.com.

IRLI (IRLI.org) is America's only public interest law organization working exclusively to protect the legal rights, privileges and property of American citizens and communities from injuries and damages caused by uncontrolled immigration. IRLI's specialized expertise in the development and drafting of immigration enforcement and relief measures played a major role in several recent legislative and judicial immigration reform victories in states such as Georgia, Arizona and Oklahoma.

"While our federal government continues to fail 'We the People,' State Legislators for Legal Immigration is aggressively working to advance legislation at the state level to do all we can to protect our citizens," said Metcalfe. "As once again documented in several recent media accounts when member states such as Georgia, Arizona and Oklahoma enacted sweeping reforms to sever the economic attractions of illegal jobs and taxpayer-funded public benefits at the source, the illegal alien invaders hiding out in those states had no choice but to self-deport to a less-secure neighboring state or to their country of origin. State Legislators for Legal Immigration will continue to serve as a unifying force to bring all levels of government together to terminate America's illegal alien invasion in every city, community, small town, main street and backyard; across our fruited plains and from sea to shining sea."

Including Pennsylvania and West Virginia, lawmakers from 36 state legislatures, or more than 60 percent of the nation, have now signed on as members of State Legislators for Legal Immigration. For more information, visit www.StateLegislatorsforLegalImmigration.com.

"Increasingly documented incidences of homicide, rape, property theft, serious infectious diseases, drug running, gang violence, human trafficking, terrorism, stolen jobs and growing cost to taxpayers are just some of the most detrimental 'imports' being brought across America's unsecured borders by illegal alien invaders who should not be here," said Metcalfe. "Even if America's ongoing illegal alien invasion never reaches your **backyard, doorstep** or **workplace** from a criminal standpoint, the presence of illegal aliens continues to empty the **back pockets** of every working and taxpaying American citizen. It is long past time for every elected official to stand up and vigorously defend the American dream for legal American citizens first, by unapologetically torching the national in-security blanket of amnesty for illegal alien invaders once and for all."

American citizens nationwide can encourage their state lawmakers to become official members of State Legislators for Legal Immigration by urging them to contact Representative Metcalfe at (724) 772-3110 or via e-mail at dmetcalf@pahousegop.com.
